

210kw 380V Hot Water Air Source Heat Pump Commercial Low Noise

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: M-D210AAH
- Minimum Order Quantity: 3SET
- Price: negotiate a price
- Packaging Details: wooden frame or plywood box
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 5 SET one day

Product Specification

- Name: Commercial Air Source Heat Pump
- Use: Hot Water
- Waterproof Level: IP×4
- COP: 3.6~4.0
- Working Ambient Temperature: 0~43C
- Power Supply: 380V/3Ph/50Hz Or 60Hz
- Heat Exchanger: Tube In Tube
- Highlight: **210kw Hot Water Air Source Heat Pump, Hot Water Air Source Heat Pump Commercial, 380V Hot Water Air Source Heat Pump**

Product Description

210kw Commercial Air Source Heat Pump High Efficiency For shool

Product Description:

Meidibao air source heat pump system is powered by ambient air and operates around the clock: it provides continuous hot water throughout the year and throughout the year, regardless of weather. The operating cost is 67% less than that of gas water heater, 75% less than that of electric water heater and 60% less than that of boiler. Intelligent control: The unit is automatically controlled by a microcomputer, and automatically runs according to the water temperature of the water tank and the user's water use, without the need for special duty. Reasonable arrangement of low front

Feature:

1. Meidibao sticks to 'create a energy-saving value and customers-oriented' principle and commitment to creating better life environment.
2. Meidibao deeply knows that only innovation can forward in the future, only innovation ability can raise productivity and product quality and only technology innovation can stand out from market, to become leading brand in heat pump industry.
3. Meidibao is dedicated to perfecting service quality and our service aims that customer-oriented and satisfactory purchasing will be carried out from consultation to post-sales support. 100% satisfactory of customer is our target.
4. MEIDIBAO can provide professional and high efficient bespoke solutions and batches of product customization according to customers' special usage conditions and needs.
5. Housing materials The external sheet metal is made of galvanised steel, and all sheet metal parts are pre-treated with rust removal, cleaning and drying, and then electrostatic spraying is used to paint the internal and external surfaces of each piece of sheet metal for a beautiful appearance

Specification:

Product	Air source heat pump
Model	M-D210AAH
Climatic type	Normal
Power supply	380V /60Hz
Rated heating capacity	210kW
Rated power input	56.7kW
Max Rated current	130A
Refrigerant / Charge	R410/18000g×2
Rated water temp.	55
Max hot water temp.	60
working temp	0-43
water pipe size	DN80
Noise	≤84dB(A)
Product dimension	2300×1300×2200mm
Net weight	1500kg

Advantages

Heat pump form heating: no need to build a boiler room, directly from the air heat absorption, reduce the cost, clean and safety, avoid environmental pollution; For some winter by heat pump heat shortage places, it can also choose auxiliary electric heating to meet the heat requirements. High efficiency, energy saving, reliable performance: choose the world famous brand rotary type or fully enclosed vortex compressor and the world famous brand high-quality refrigeration components, to ensure that the whole machine plays the highest energy efficiency. The multi-system unit adopts a two-stage energy regulation system, which is especially suitable for partial load, more energy saving and can effectively protect the frequent start of the system.
