OEM ODM Commercial Air Source Heat Pump 160KW Environmentally Friendly

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: meidibao
- Certification: CE
- Model Number: MDB-450WD
- Minimum Order Quantity: 1SET
- Price: negotiate a price
- Packaging Details: Factory standard packing
- Delivery Time: 25-30 days
- Payment Terms: T/T
- Supply Ability: 3 set one day

Product Specification

- Name: Commercial Air Source Heat Pump
- Refrigerant: R410A
- Power Supply: 380V/3PH/60Hz Or 50Hz
- Compressor Type: Scroll
- Type: Air Source Heat Pump
- Service: OEM
- Compressor: Copeland Or Panasonic
- Highlight: **ODM Commercial Air Source Heat Pump**, **Commercial Air Source Heat Pump 160KW**

Product Description

160KW Commercial Air Source Heat Pump for high efficiency heat pump heater

Product Description:

Meidibao air source heat pump system is powered by ambient air and operates around the clock: it provides continuous hot water thrughout the yeat and throughout the year, regardless of weather . The opreating cost is 67% less than that of gas water heater, 75% less than that of electric water heater and 60% less than that of boiler.Intelligent control: The unit is automatically controlled by a microcomputer, and automatically runs according to the water temperature of the water tank and the user's water use, without the need for special duty. Reasonable arrangement of low front

Feature:

1. Foshan Meidibao Electrical Appliance Co.,Ltd. has been a manufacturer professionally specialized in research,development and production of Heat Pumps since 2005.Our well-equipped facilities and excellent quality control throughout all stages of production enables us to guarantee customer satisfaction.
2. can OEM ODM ,Experienced
3. high efficiency shell in tube
4. High heating capacity: Able to provide a significant amount of heat to meet the demands of large commercial spaces.

Specification:

Product	Air source heat pump
Model	MDB-450WD
Climatic type	Normal
Power supply	380V /60Hz
Rated heating capacity	162.8kW
Rated power input	40.7kW
Max Rated current	93.4A
Refrigerant	R410
Rated water temp.	55
Max hot water temp.	60
working temp	0-43
Noise	≤82dB(A)
Product dimension	2200×2000×2300mm
Net weight	1100kg
Testing condition:ambient Dry/Wet Bulb Temp: 20 / 15 ;Water Inlet Outlet Temp: 15 / 55	

Advantages:

Energy savings: It can significantly reduce energy consumption compared to traditional heating systems, resulting in lower utility bills.
Environmentally friendly: Produces fewer greenhouse gas emissions, helping to protect the environment.
Versatile application: Can be used for both heating and cooling, providing year-round comfort.
Low maintenance: Requires relatively less maintenance compared to some other systems.
Independent of fossil fuels: Reduces reliance on non-renewable energy sources.
Quick installation: Can often be installed relatively easily and quickly.
Improved indoor air quality: Does not generate pollutants or fumes like some combustion-based systems.
Long lifespan: When properly maintained, can last for many years.
Cost-effective in the long run: Despite the initial investment, it can lead to savings over time.
