

## High COP 10HP Swimming Pool Air Source Heat Pump With Rated Heating Capacity 35kw

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: meidibao
- Certification: CE
- Model Number: KFXRS-35II-M7
- Minimum Order Quantity: 2 SET
- Price: negotiate a price
- Packaging Details: Factory standard packing
- Delivery Time: 25-30 days
- Payment Terms: T/T
- Supply Ability: 10 set one day

### Product Specification

- Rated Heating Capacity: 35kw
- Type: Air Source Heat Pump
- Input Power: 8.4kw
- Service: OEM
- Colour: Dark Gray With White
- Name: Custom Heat Pump
- Highlight: **10HP Custom Heat Pump,  
Custom Heat Pump Fixed Frequency,  
Custom Heat Pump 40kw**

## Product Description

10HP Crstom Heat Pump Fixed Frequency with Rated Heating Capacity 40kw

### Product Description:

Experience efficient and eco-friendly pool heating with our 10HP High COP Swimming Pool Air Source Heat Pump. With a rated heating capacity of 35kW, this unit is designed to maintain optimal pool temperatures while minimizing energy usage, making it an ideal choice for both commercial and residential pools. Perfect for maintaining optimal swimming conditions in large residential and commercial pools, this 10HP heat pump ensures efficient and reliable performance, allowing pool owners to extend the swimming season in an energy-conscious way.

### Feature:

- 1. High Coefficient of Performance (COP):** Engineered to deliver high energy efficiency, this heat pump maximizes heating output while minimizing electricity consumption, reducing operational costs.
- 2. Powerful 35kW Heating Capacity:** Designed to handle large pools, this unit's 35kW heating capacity ensures fast and even temperature maintenance, allowing swimmers to enjoy comfortable conditions year-round.
- 3. Eco-Friendly R410A Refrigerant:** Utilizing R410A refrigerant, this unit offers efficient heating with zero ozone depletion potential, aligning with sustainable practices.
- 4. Durable & Weather-Resistant Build:** Built with high-quality materials, this heat pump is designed to withstand outdoor conditions, ensuring longevity and consistent performance.
- 5. Low Noise Operation:** Advanced noise-dampening technology ensures quiet operation, making it suitable for residential pools, resorts, and recreational centers where low noise levels are essential.
- 6. User-Friendly Digital Control Panel:** A convenient digital control panel allows for easy temperature adjustments and precise control over the unit's settings.

### Specification:

Product	Air source heat pump
Model	KFXRS-35II-M7
Climatic type	Normal
Power supply	380V/3HP/60Hz
Rated heating capacity	35kW
Rated power input	8.4kW
Max Rated current	19.5A
Refrigerant	R410A
Rated water temp.	55
Max hot water temp.	60
working temp	0-43
Noise	≤64dB(A)
Product dimension	1450×750×1060mm
Net weight	280kg
Testing condition: ambient Dry/Wet Bulb Temp: 20 / 15 ; Water Inlet Outlet Temp: 15 / 55	

### Advantages:

Heat pump form heating: no need to build a boiler room, directly from the air heat absorption, reduce the cost, clean and safety, avoid environmental pollution; For some winter by heat pump heat shortage places, it can also choose auxiliary electric heating to meet the heat requirements. High efficiency, energy saving, reliable performance: choose the world famous brand rotary type or fully enclosed vortex compressor and the world famous brand high-quality refrigeration components, to ensure that the whole machine plays the highest energy efficiency. The multi-system unit adopts a two-stage energy regulation system, which is especially suitable for partial load, more energy saving and can effectively protect the frequent start of the system.
