

25HP High Efficiency Heating and Cooling Heat Pump for Industrial Cooling Applications

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: KFXKS-88II-M2(LRS)
- Minimum Order Quantity: 3 Unit
- Price: negotiate a price
- Packaging Details: Factory standard packing
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 50 Unit/Units per Month

Product Specification

- Working Temp: -7 43
- Name: Heating And Cooling Heat Pump
- Color: Dark Grey, OEM
- Application: Outdoor
- Origin: Guangdong
- Feature: High Efficiency
- Cooling: 50.4KW
- Highlight: **25HP Heating And Cooling Heat Pump, Heating And Cooling Heat Pump Outdoor, Industrial Cooling Heat Pump**

25HP Heating and Cooling Heat Pump Outdoor Unit for Industrial Applications

Product Overview

25HP heating and cooling heat pump primarily designed for industrial cooling applications in sectors such as textile manufacturing and adhesive tape production. This multi-function unit provides cooling in summer and heating in winter, offering year-round climate control solutions.

Foshan Meidibao Electrical Appliance Co., Ltd. has been a specialized manufacturer in heat pump research, development, and production since 2005. Our well-equipped facilities and comprehensive quality control ensure complete customer satisfaction.

Key Features

- Compatibility with various HVAC systems
- Excellent heat transfer performance for rapid and effective temperature regulation
- Horizontal shell tube design
- Ideal for large commercial buildings and industrial facilities requiring precise temperature control
- Efficient heating during colder months and cooling during warmer periods
- Advanced control system for scheduling temperature settings
- Quiet operation for peaceful environments

Technical Specifications

Product	Heating And Cooling Heat Pump
Model	KFXKS-88II-M2(LRS)
Climatic Type	Normal
Power Supply	380V /50Hz
Rated Heating Capacity	66.7kW
Rated Heating Power	18.9kW
Rated Cooling Capacity	50.4KW
Rated Cooling Power	17kW
Max Rated Current	50A
Refrigerant / Charge	R410/4000g×4
Rated Heating Water	55
Rated Cooling Water	7
Max Hot Water Temp.	60
Working Temp	0-43
Water Pipe Size	DN65
Noise	≤71dB(A)
Product Dimension	2000×1100×1960mm
Net Weight	720kg

Key Advantages

- Energy Efficiency:** Significantly reduces energy consumption compared to traditional heating and cooling methods
- Versatility:** Provides both heating and cooling functions in one unit for year-round flexibility
- Environmentally Friendly:** Produces fewer emissions and offers sustainable operation

Cost Savings: Lower energy bills over time due to efficient operation

Quiet Operation: Minimal disturbance to the environment

Space-Saving: Consolidates heating and cooling into a single unit

Fast Response: Quickly adjusts temperature to meet desired settings

Improved Indoor Air Quality: Maintains proper humidity levels and filters air

Long Lifespan: Durable construction for many years of service with proper maintenance

Easy to Control: User-friendly controls for convenient operation and temperature management
