

## 65KW EVI Heat Pump for Commercial Locations with High Efficiency and -35 Operation

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: DKFXKS-84II-M11
- Minimum Order Quantity: 3 Unit
- Price: negotiate a price
- Packaging Details: Factory standard packing
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 10 Unit/Units per Month

### Product Specification

- Working Temp: -35 43
- Color: Dark Grey, OEM
- Application: Outdoor
- Origin: Guangdong
- Feature: High Efficiency
- Cooling: 55.2KW
- Name: EVI Heat Pump
- Highlight: **65KW EVI Heat Pump, EVI Heat Pump Heating And Cooling**

## 65KW EVI Heat Pump Heating and Cooling for Commercial Locations (-35 )

Foshan Meidibao Electrical Appliance Co., Ltd. has been a manufacturer professionally specialized in research, development and production of Heat Pumps since 2005. Our well-equipped facilities and excellent quality control throughout all stages of production enables us to guarantee customer satisfaction.

This multi-function heat pump provides cooling in summer and heating in winter for commercial applications.

### Health and Comfort Features

Scientific research shows that from the perspective of health and comfort, the ideal temperature in winter is between 18-20 . The ideal heat distribution shows a temperature distribution from floor to ceiling and vertical reduction, which can keep the feet warm and clear-headed.

The heat of the floor heating rises from the foot, so that the temperature of the whole indoor space is hierarchically distributed. It conforms to the theory that TCM health is "warm and cool". The floor heating is an ideal heating method without hot air, which is beneficial to the body to maintain moisture. At the same time, it has a promoting effect on rheumatism and asthma.

### Technical Specifications

Product	EVI Heating And Cooling Heat Pump
Model	DKFXKS-84II-M11
Power supply	380V /50Hz
Rated heating capacity (A7 W45)	65.6kW
Rated heating power	19.3kW
Rated heating capacity (A-12 W41)	45.6KW
Rated heating power	19KW
Rated cooling capacity (A35 W7)	55.2KW
Rated cooling power	23kW
Max Rated current	52.8A
Refrigerant / Charge	R410/6500g×2
Water pipe size	DN65
Noise	≤70dB(A)
Product dimension	2000×1100×1960mm
Net weight	800kg

### Key Advantages

- Energy efficiency: It can significantly reduce energy consumption compared to traditional heating and cooling methods.
- Versatility: Offers both heating and cooling functions in one unit, providing flexibility throughout the year.
- Environmentally friendly: Produces fewer emissions and is a more sustainable option.
- Cost savings: Lower energy bills over time due to its efficient operation.
- Quiet operation: Runs quietly, minimizing disturbance to the environment.
- Space-saving: Consolidates heating and cooling into a single unit, saving space.
- Fast response: Can quickly adjust the temperature to meet the desired settings.
- Improved indoor air quality: Can help maintain a proper humidity level and filter the air.
- Long lifespan: With proper maintenance, can last for many years.
- Easy to control: Has user-friendly controls for convenient operation and temperature management.
