#### Advantages:

Meidibao commercial heat pump provides year-round comfort to any business or office. A heat pump split and monoblock system can take care of both your heating and cooling needs and save you money in the process.

A heat pump is an air conditioning condenser that is configured to work "in reverse" in the wintertime when heat is needed rather than cooling. You get a heater and air conditioner in one efficient unit. Our wide selection of air source heat pumps ensures that we have your heating and cooling needs covered, and our state-of-the-art products can save you an amazing amount of money on energy bills. Our inventory of heat pumps includes 220- and 420-volt units.
