

10HP 380V 3N/50Hz Only Cooling Heat Pump for Textile Cooling

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: MDB-25II-M1
- Minimum Order Quantity: 3 Units
- Price: negotiate a price
- Packaging Details: Factory standard packing
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 50 Unit/Units per Month

Product Specification

- Working Temp: -7 43
- Color: Dark Grey, OEM
- Origin: Guangdong
- Compressor: Copeland Scroll
- Rated Cooling Water: 5
- Power Supply: 380V 3N /50Hz
- Name: Only Cooling Heat Pump
- Highlight: **10HP Only Cooling Heat Pump,
Only Cooling Heat Pump 380V,
Textile Cooling Heat Pump**

Product Description

10HP Only Cooling Heat Pump 380V 3N/50Hz For Textile Cooling

Product Overview

This 10HP only cooling heat pump is specifically designed for textile cooling applications, operating at 380V 3N /50Hz. Manufactured by Foshan Meidibao Electrical Appliance Co., Ltd., a specialist in heat pump research, development and production since 2005, this unit represents top-tier build quality engineered for durability and minimal maintenance requirements.

The heat pump delivers exceptional energy efficiency, reducing operational costs while supporting sustainable manufacturing practices through lower electricity consumption.

Key Features

- Easy installation with monoblock type design
- High-performance brand compressor
- Electronic Expansion Valve (EEV)
- Fault code display for easy troubleshooting
- Comprehensive auto protection system

Technical Specifications

Product Type	Only Cooling Heat Pump
Model	MDB-25II-M1
Climatic Type	Normal
Power Supply	380V /50Hz
Rated Cooling Capacity	25KW
Rated Cooling Power	10.86kW
Rated Current	19.2A
Refrigerant / Charge	R410/2600g×2
Rated Cooling Water	7
Working Temperature	0-43
Water Pipe Size	DN40
Noise Level	≤68dB(A)
Product Dimension	1500×690×1060mm
Net Weight	290kg

Performance Advantages

- Energy Efficiency:** Significantly reduces energy consumption compared to traditional cooling methods
- Environmentally Friendly:** Produces fewer emissions and supports sustainable operations
- Cost Savings:** Lower energy bills over time due to efficient operation
- Quiet Operation:** Runs quietly with noise levels ≤68dB(A), minimizing environmental disturbance
- Space-Saving Design:** Compact footprint with dimensions of 1500×690×1060mm
- Fast Response:** Quickly adjusts temperature to meet desired settings
- Long Lifespan:** Built for durability with proper maintenance
- Easy Control:** User-friendly controls for convenient operation and temperature management
