

Easy Move 3.5 Kw Heat Pump Swimming Pool Mini Air Source Heat Pump

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: meidibao
- Certification: CE
- Model Number: M-D03AAS
- Minimum Order Quantity: 10 units
- Price: confer
- Packaging Details: wooden frame or plywood box
- Delivery Time: 25-30days
- Payment Terms: T/T
- Supply Ability: 300 units a month

Product Specification

- Heat Exchanger: Titanium
- Working Ambient Temperature: 0~43C
- Power Supply: 220V/1/50HZ
- Refrigerant: R32/R410
- Heat Source Type: Air Source Heat Pump
- Net Dimensions: 606*356*527mm
- Name: Swimming Pool Air Source Heat Pump
- Highlight: **3.5 Kw Heat Pump Swimming Pool, Swimming Pool Mini Air Source Heat Pump, Easy Move 3.5 Kw Heat Pump**

Product Description

3.5KW swimming pool air source heat pump Mini pool machine, mobile swimming pool

Product Description:

Meidibao's heat pumps are the good choice for pool heating because of its economical operations, safety, and environment friendly. Swimming Pool Heat Pumps are high capacity heating systems that can raise the temperature of the swimming pool water from ambient to set temperature (27 ~ 35) and maintain the temperature.

To keep swimming pools warm and comfortable even during the cold winters, Meidibao Swimming pool heat pump range is perhaps the best possible solution for all swimming lovers. Compared to a standard electric, gas, or oil pool heater, Meidibao Swimming Pool Heat Pump is most cost efficient as well as the most convenient mode of enjoying hot relaxing pool water. although pool heaters such as gas or electric heaters increase the temperature of pool rapidly, Swimming Pool Heat Pumps are efficient and reliable and can save a lot of money in longer run.

Feature:

1. Mini
2. Easy to move
3. Advanced compressor: Ensures reliable and efficient operation.
4. Quick heat transfer: Efficiently transfers heat to the pool water for a prompt temperature increase.

Specification:

Move Air Source Heat Pump	
Model:	M-D03AAS
Power Supply:	1P/220V/50Hz
Rated Heating Capacity (A26 /W26): KW	3.5
COP:	5.35
Rated Heating Capacity (A15 /W26): KW	3.1

COP:	4.45
Refrigerant Type:	R32
Refrigerant Volume:	350g
Applicable Ambient:	0 -43
Net Dimensions (L*W*H):	606*356*527mm
Net Weight:	31kg
Color:	White

Advantages:

Consistent water temperature: Maintains a stable and comfortable water temperature for swimming.

All-season use: Allows the pool to be used even in colder weather.

Fast heating: Can quickly raise the water temperature.

Easy installation: Comparatively simpler to install compared to some other systems.

Low noise level: Does not create excessive noise during operation.

Long lifespan: With proper maintenance, can last for many years.

Versatile application: Suitable for various sizes and types of swimming pools.

Cost-effective in the long run: Although the initial investment may be significant, the savings in energy over time can make it economically beneficial.
