

DKFXKR-25II-M2C R410A EVI DC Inverter Heat Pump 50Hz Fixed Air Source Heat Pump

Our Product Introduction

for more products please visit us on airsource-heatingpump.com

Basic Information

- Place of Origin: China
- Brand Name: meidibao
- Certification: CE
- Model Number: DKFXKR-25II-M2C
- Minimum Order Quantity: 6 units
- Price: negotiate a price
- Packaging Details: Factory standards
- Delivery Time: 25-30 work days
- Payment Terms: T/T
- Supply Ability: 20 units day

Product Specification

- Name: R410A EVI DC Inverter Heat Pump
- Brand Name: MEIDIBAO
- Place Of Origin: China
- Type: Fixed
- Color: White,OEM
- Operation Ambient Temp: -25~43
- Compressor: Famous Brand Compressor
- Highlight: **R410A EVI DC Inverter Heat Pump,
50Hz Fixed Air Source Heat Pump**

Product Description

DKFXKR-25II-M2C EVI heat pump R410a 50Hz fixed air source water heater

Product Description:

Meidibao DC inverter air source heat pump utilize DC inverter technology and REPM compressor which running speeds can be adjusted follow the variation of ambient or water temperature, hence to regulate the output capacity with changeably, this can heat the storage tank or room much quicker than normal on/off heat pumps, and balance the water or air temp very precisely. Scientific research shows that from the perspective of health and comfort, the ideal temperature in winter is between 18-20C .The ideal heat distribution shows a temperature distribution from floor to ceiling and vertical reduction, which can keep the feet warm and clear-headed. The heat of the floor heating rises from the foot, so that the temperature of the whole indoorspace is hierarchically distributed. it conforms to the theory that TCM health is "warm and cool" The floor heating is an ideal heating method without hot air, which is beneficial to the body to maintain moisture. At the same time, it has a promoting effect on rheumatism and asthma.

Feature:

1. Famous brand compressor
2. Multiple protections
3. Automatic and forced defrost
4. Monoblock type
5. EEV

Specification:

Product	Inverter EVI Heating And Cooling Heat Pump
Model	DKFXKR-25II-M2C
Power supply	3N 380V 50HZ
Rated heating capacity (A7 W45)	19.2kW
Rated heating power	5.61kW
Rated heating capacity (A-12 W41)	13.3KW
Rated heating power	5.49KW
Rated cooling capacity	16.1KW
Rated cooling power	6.71kW
Rated current	15.4A
Refrigerant / Charge	R410/3600g
water pipe size	DN25
Noise	≤68dB(A)
Product dimension	1120×510×1275mm
Net weight	175kg

Advantages:

Under ideal weather conditions, heat pump water heaters produce three times the energy used to power the heat pump. In other words, heat pump water heaters use one-third of the electricity of conventional electric water heaters. CUB estimates that the average residential customer would save a lot of money per month using a MEIDIBAO heat pump water heater.
