

## Inverter EVI Heat Pump with Low Temperature Operation, Stainless Plate Exchanger, and Inverter Compressor

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: meidibao
- Certification: CE
- Model Number: DKFXKR-63II-M1CD1
- Minimum Order Quantity: 6 units
- Price: negotiate a price
- Packaging Details: Factory standards
- Delivery Time: 25-30 work days
- Payment Terms: T/T
- Supply Ability: 20 units one day

### Product Specification

- Brand Name: MEIDIBAO
- Place Of Origin: China
- Type: Inverter
- Operation Ambient Temp: -25~43
- Compressor: Inverter Compressorinverter Compressor
- Heat Exchanger: Stainless Plate Exchanger
- Name: EVI Heat Pump
- Highlight: **EVI Heat Pump LOW Temperature ,  
Inverter Type EVI Heat Pump ,  
Low Temperature Air Source Heat Pump EVI**

## Inverter Type EVI Heat Pump Low Temperature Air Source Heat Pump

### Product Overview

DKFXKR-63II-M1CD1 Inverter LOW temperature heat pump for heating and cooling applications.

Foshan Meidibao Electrical Appliance Co., Ltd. has been a professional manufacturer specializing in research, development, and production of heat pumps since 2005. Our well-equipped facilities and excellent quality control throughout all stages of production enable us to guarantee complete customer satisfaction.

Meidibao manufactures diverse types of bespoke and regular heat pumps including air to water heat pumps, EVI low-temperature, DC inverter, high temperature, ground source, and swimming pool heat pumps.

### Key Features

- Inverter compressor
- Multiple protection systems
- Automatic and forced defrost
- Anti-freezing function
- Stainless steel plate exchanger

### Technical Specifications

|                                   |  |
|-----------------------------------|--|
| Product                           | Inverter EVI Heating And Cooling Heat Pump |
| Model                             | DKFXKR-63II-M1CD1                          |
| Power Supply                      | 3N 380V 50HZ                               |
| Rated Heating Capacity (A7 W45)   | 56.8kW                                     |
| Rated Heating Power               | 16.7kW                                     |
| Rated Heating Capacity (A-7 W41)  | 40.6KW                                     |
| Rated Heating Power               | 15KW                                       |
| Rated Cooling Capacity (A-12 W41) | 36KW                                       |
| Rated Cooling Power               | 14.8kW                                     |
| Max Rated Current                 | 38A  |
| Refrigerant / Charge              | R410/8700g                                 |
| Water Pipe Size                   | DN40                                       |
| Noise                             | ≤70dB(A)                                   |
| Product Dimension                 | 1150×550×1575mm                            |
| Net Weight                        | 350kg                                      |

### Performance Advantages

Under ideal weather conditions, heat pump water heaters produce three times the energy used to power the heat pump. In other words, heat pump water heaters use one-third of the electricity of conventional electric water heaters. CUB estimates that the average residential customer would save significantly on monthly energy costs using a MEIDIBAO heat pump water heater.
