

## Inverter Type EVI Heat Pump Low Temperature Air Source Heat Pump

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: meidibao
- Certification: CE
- Model Number: DKFXKR-63II-M1CD1
- Minimum Order Quantity: 6 units
- Price: negotiate a price
- Packaging Details: Factory standards
- Delivery Time: 25-30 work days
- Payment Terms: T/T
- Supply Ability: 20 units one day

### Product Specification

- Brand Name: MEIDIBAO
- Place Of Origin: China
- Type: Inverter
- Operation Ambient Temp: -25~43
- Compressor: Inverter Compressorinverter Compressor
- Heat Exchanger: Stainless Plate Exchanger
- Name: EVI Heat Pump
- Highlight: **EVI Heat Pump LOW Temperature ,  
Inverter Type EVI Heat Pump ,  
Low Temperature Air Source Heat Pump EVI**

## Product Description

DKFXKR-63II-M1CD1 Inverter LOW temperature heat pump heating and cooling

### Product Description:

Foshan Meidibao Electrical Appliance Co.,Ltd. has been a manufacturer professionally specialized in research,development and production of Heat Pumps since 2005.Our well-equipped facilities and excellent quality control throughout all stages of production enables us to guarantee customer satisfaction.

Meidibao manufactures diverse types of bespoke and regular Heat Pump including air to water heat pumps,EVI low-temperature,DC inverter,high temperature,ground source and swimming pool heat pumps.

We are currently looking for two types of business partners across the globe: OEM/ODM partners and heat pump distributors/resellers.For OEM/ODM partners,Meidibao can produce Europe standard air source, ground source and water source heat pumps under partner's brand and customize products to satisfy partner's special needs.

### Feature:

1. Inverter compressor
2. Multiple protections
3. Automatic and forced defrost
4. Anti-freezing function
5. stainless plate exchanger

### Specification:

|                                  |  |
|----------------------------------|--|
| Product                          | Inverter EVI Heating And Cooling Heat Pump |
| Model                            | DKFXKR-63II-M1CD1                          |
| Power supply                     | 3N 380V 50HZ                               |
| Rated heating capacity (A7 W45)  | 56.8kW                                     |
| Rated heating power              | 16.7kW                                     |
| Rated heating capacity (A-7 W41) | 40.6KW                                     |
| Rated heating power              | 15KW                                       |
| Rated cooling capacity(A-12 W41) | 36KW                                       |
| Rated cooling power              | 14.8kW                                     |
| Max Rated current                | 38A  |
| Refrigerant / Charge             | R410/8700g                                 |
| water pipe size                  | DN40                                       |
| Noise                            | ≤70dB(A)                                   |
| Product dimension                | 1150×550×1575mm                            |
| Net weight                       | 350kg                                      |

### Advantages:

Under ideal weather conditions, heat pump water heaters produce three times the energy used to power the heat pump. In other words, heat pump water heaters use one-third of the electricity of conventional electric water heaters. CUB estimates that the average residential customer would save a lot of money per month using a MEIDIBAO heat pump water heater.
