

30HP Hot Water Heat Pump Low Temperature White / Dark Grey R410A Refrigerant

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: DKFXRS-105II-M1
- Minimum Order Quantity: 3 units
- Price: negotiate a price
- Packaging Details: Factory Standard
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 5 units one day

Product Specification

- Use: Hot Water
- Working Ambient Temperature: -35~43C
- MAX Temp: 60
- Refrigerant: R410A
- Color: White, Dark Grey
- Power Supply: 380V-415V/3PH/50Hz
- Name: EVI Heat Pump
- Highlight: **30HP Hot Water Heat Pump, Hot Water Heat Pump Low Temperature**

Product Description

30HP EVI heat pump hot water In the low temperature environment to meet the Bath, bath desire

Product Description:

Foshan Meidibao Electric Appliance Co.,Ltd relays on science and technology, walks the road of scientific management, adheres to the good faith management, serves the community for the purpose and pays attention to create the energy conservation and environmental friendly product. After many years of accumulation and development, R&D ability and service level gradually increases with series of patent and independent intellectual property rights. Meidibao has sound production equipment and perfect craftsmanship process with regular and bespoke experience and capacity for air source heat pump producing over thousands of heat pump per year.

Feature:

1. famous brand compressor
2. Multiple protections
3. Automatic and forced defrost
4. Anti-freezing function

Specification:

Heat pump		DKFXRS-105II-M1
Power supply	V-Hz	380V-415V/3PH/50Hz
Working temp		-35~43
Min./Max.out water temp		55/60
Output Heating Capacity(20 /15)	KW	106
Innut power	KW	26
Output Heating Capacity(-12 /-14)	KW	48
Innut power	KW	21.7
MAX Rated current	A	60
Compressor		Scroll
Refrigerant		R410A

Advantages:

Heat pump form heating: no need to build a boiler room, directly from the air heat absorption, reduce the cost, clean and safety, avoid environmental pollution; For some winter by heat pump heat shortage places, it can also choose auxiliary electric heating to meet the heat requirements. High efficiency, energy saving, reliable performance: choose the world famous brand rotary type or fully enclosed vortex compressor and the world famous brand high-quality refrigeration components, to ensure that the whole machine plays the highest energy efficiency. The multi-system unit adopts a two-stage energy regulation system, which is especially suitable for partial load, more energy saving and can effectively protect the frequent start of the system.
