

24kw Air Source Heat Pump Swimming Pool 3/380V/50Hz Easy Installation

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: meidibao
- Certification: CE
- Model Number: YKFXRS-24II-M2
- Minimum Order Quantity: 6units
- Packaging Details: Factory standards
- Delivery Time: 25-30days
- Payment Terms: T/T
- Supply Ability: 30 units one day

Product Specification

- Name: Air Source Heat Pump Swimming Pool
- Heat Exchanger: Titanium
- Working Ambient Temperature: 0~43C
- Power Supply: 380V-415V/3/50HZ
- Type: Air Source Heat Pump
- Heating: 24.5KW
- Noise: ≤68dB(A)
- Highlight: **24kw Air Source Heat Pump Swimming Pool, Air Source Heat Pump Swimming Pool 380V, 24kw heat pump Easy installation**

Product Description

24KW swimming pool air source heat pump 3/380V/50Hz water heater

Product Description:

This heat pump is engineered to provide consistent and reliable heating for your pool, ensuring a comfortable swimming experience throughout the year. With a powerful 5HP capacity, it is capable of handling pools of various sizes with ease. The heat pump is also designed to be durable and withstand harsh outdoor conditions, ensuring long-term reliability.

Installation is straightforward, and its compact size makes it suitable for various pool setups. Additionally, the low-noise operation ensures that it doesn't disrupt your peaceful poolside moments.

Whether for residential or commercial swimming pools, this 5HP Swimming Pool Air Source Heat Pump is the perfect choice to keep your pool water at the desired temperature, allowing you to enjoy a refreshing swim whenever you desire.

Feature:

1. High heating capacity
2. Energy efficiency: Extracts heat from the surrounding air, reducing energy consumption compared to traditional heating methods.
3. Titanium heat exchanger
4. Stable performance: ensuring consistent heating.
5. Low noise
6. Durability: Built with robust materials to withstand outdoor conditions and long-term use.

Specification:

Product	swimming pool heat pump
Model	YKFXRS-24II-M2
Climatic type	Normal
Power supply	380V /50Hz
Rated heating capacity	24.5kW
Rated power input	6.1kW
Max Rated current	10.7A
Refrigerant / Charge	R410/3400
Rated water temp.	28
Max hot water temp.	45
water pipe size	DN50
Noise	≤65dB(A)
Anti-electric shock rate	I
Protection grade	IP×4

Advantages:

Environmentally friendly: Produces fewer greenhouse gas emissions.

Consistent water temperature: Maintains a stable and comfortable water temperature for swimming.

All-season use: Allows the pool to be used even in colder weather.

Fast heating: Can quickly raise the water temperature.

Easy installation: Comparatively simpler to install compared to some other systems.

Low noise level: Does not create excessive noise during operation.

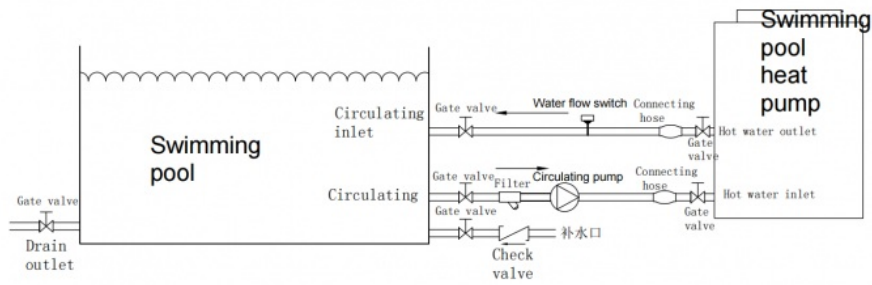

Long lifespan: With proper maintenance, can last for many years.

Versatile application: Suitable for various sizes and types of swimming pools.

Cost-effective in the long run: Although the initial investment may be significant, the savings in energy over time can make it economically beneficial.
