

20HP Swimming Pool Air Source Heat Pump 60hz PPR Shell Titanium Tube

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: meidibao
- Certification: CE
- Model Number: M-D75AAS
- Minimum Order Quantity: 3 units
- Price: negotiation
- Packaging Details: Factory standards
- Delivery Time: 25-30days
- Payment Terms: T/T
- Supply Ability: 30 units one day

Product Specification

- Heat Exchanger: PPR Shell Titanium Tube
- Working Ambient Temperature: 0~43C
- Power Supply: 3N/380V/60Hz
- Refrigerant: R410
- Max Temp: 55
- Support Water Volume: 1620L/H
- Name: Swimming Pool Air Source Heat Pump
- Highlight: **20HP Swimming Pool Air Source Heat Pump, Swimming Pool Air Source Heat Pump 60hz, 20HP Air Source Pump For Swimming Pool**

Product Description

20HP swimming pool air source heat pump 60Hz PPR shell titanium tube

Product Description:

This heat pump is engineered to extract heat from the ambient air and transfer it to the pool water, ensuring a comfortable swimming experience throughout the year. With a powerful 20HP capacity, it is capable of heating large swimming pools quickly and effectively.

The 60Hz frequency ensures stable and consistent performance, minimizing any potential fluctuations. The PPR shell offers excellent insulation properties, reducing heat loss and improving energy efficiency. The titanium tube, known for its durability and corrosion resistance, guarantees a long service life and reliable operation even in harsh conditions.

This heat pump is not only energy-efficient but also environmentally friendly, as it consumes less electricity compared to traditional heating methods.

Feature:

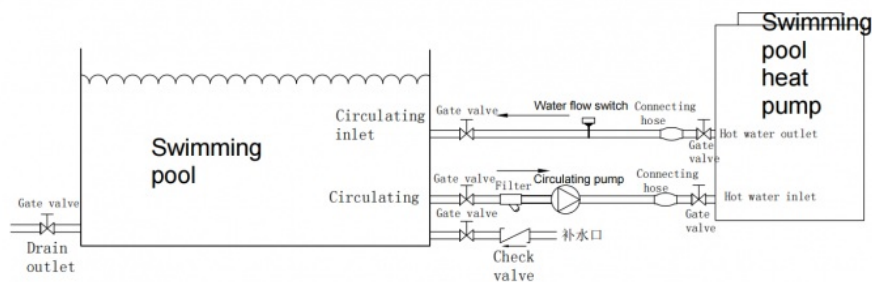

1. High Power Output: The 20HP capacity enables efficient and rapid heating of large swimming pools, ensuring a pleasant water temperature in a short time.
2. Machine housing: Galvanized sheet or 304# sheet metal
3. PPR shell titanium tube heat exchanger
4. Corrosion-Resistant Titanium Tube: The titanium tube is highly resistant to corrosion, ensuring a long lifespan and reliable performance even in the presence of pool chemicals and varying water conditions.
5. Energy Saving and environmental protection

Specification:

Product	swimming pool heat pump
Model	M-D75AAS
Climatic type	Normal
Power supply	3N/380V/60Hz
Rated heating capacity	75.3kW
Rated power input	20.3kW
Max Rated current	46.7A
Refrigerant / Charge	R410/2600×4
Rated water temp.	28
Max hot water temp.	55
water pipe size	3"
Noise	≤71dB(A)
Anti-electric shock rate	I
Protection grade	IP×4

Project:

Air source **Swimming pool heat pump**
