

5HP Side Discharge Space Saving Heating And Cooling Heat Pump for Efficient Temperature Control

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: M-C18AAH2
- Minimum Order Quantity: 6 units
- Price: negotiate a price
- Packaging Details: Factory standard packing
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 30 units one day

Product Specification

- Working Ambient Temperature: 0~43C
- Refrigerant: R410
- Color: Dark Gray OEM
- Brand Name: MEIDIBAO
- Compressor: Scorrll
- Heating: 18KW
- Name: Heating And Cooling Heat Pump
- Highlight: **5HP Heating And Cooling Heat Pump, Heating And Cooling Heat Pump Side Discharge, Side Discharge Heat Pump Heating And Cooling**

5HP Heating And Cooling Heat Pump Side Discharge Space Saving

Product Overview

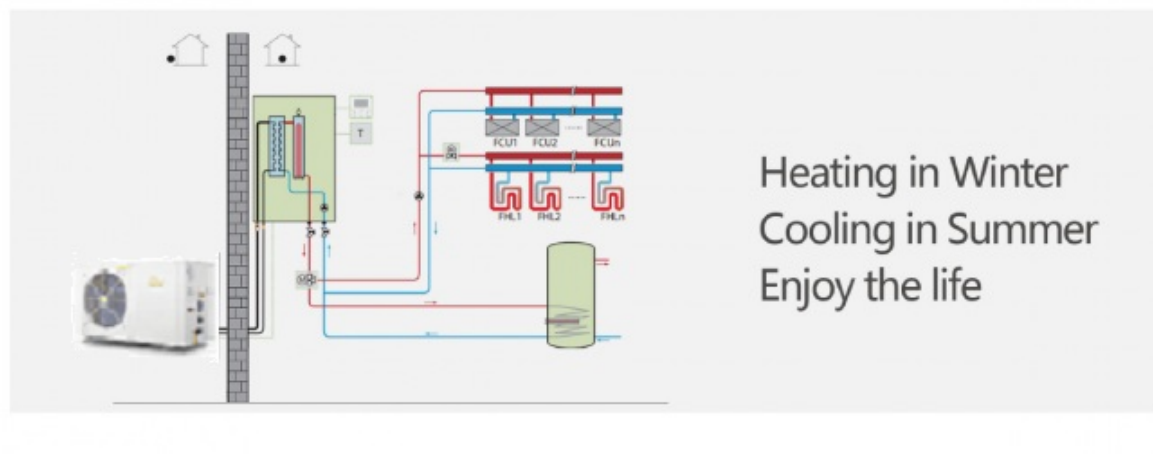

This 5HP heating and cooling heat pump features side discharge design for space-saving installation, making it ideal for locations with limited space. The unit provides both heating and cooling functions, ensuring comfortable indoor environments throughout all seasons.

Detailed Description

This versatile heat pump efficiently handles temperature control requirements for medium-sized spaces. During colder months, it extracts heat from outside air and transfers it indoors for warmth. In summer, it reverses this process to remove indoor heat, providing cooling comfort.

Engineered with advanced technology for optimal energy efficiency, the heat pump reduces electricity consumption while minimizing environmental impact. Its quiet operation ensures peaceful living or working environments, while straightforward installation and user-friendly interface simplify operation and maintenance.

Key Features

Technical Specifications

Product	Air source heat pump
Model	M-C18AAH2
Climatic type	Normal
Power supply	380V/3HP/50Hz
Rated heating capacity	17.5kW
Heating power input	4.4kW
Rated cooling capacity	11.5KW
Cooling power input	5.2KW
Max Rated current	10.1A
Refrigerant	R410
Max hot water temp.	60
Cooling water temp.	7
Working temp	0-43
Water pipe size	DN25
Noise	≤65dB(A)
