

High Efficiency Heating And Cooling Heat Pump Commercial R410A Refrigerant

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: KFXKS-140II-M1(LRS)
- Minimum Order Quantity: 3 Units
- Price: negotiate a price
- Packaging Details: Factory standard packing
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 5 units one day

Product Specification

- Name: Heating And Cooling Heat Pump
- Application: Outdoor
- Feature: High Efficiency
- Place Of Origin: China
- Refrigerant Type: R410A
- Heat Exchanger: Titanium Tube In Tube
- Origin: Guangdong China
- Highlight: **High Efficiency Heating And Cooling Heat Pump , Heating And Cooling Heat Pump Commercial, R410A Heat Pump Heating And Cooling**

Product Description

KFXKS-140II-M1(LRS) heating and cooling heat pump for Large commercial premises

Product Description:

The 40RT 304# sheet metal heating and cooling heat pump is a highly advanced and efficient system designed to meet the demanding temperature control needs of various applications. This heat pump is engineered with a 40RT capacity, ensuring powerful and rapid heating and cooling capabilities. The use of 304# sheet metal for the construction of its outer casing provides excellent durability and resistance to corrosion, making it suitable for both indoor and outdoor installations. In the heating mode, it efficiently extracts heat from the surrounding environment and transfers it indoors, providing a warm and comfortable atmosphere. When it's time to cool, the system reverses the process, removing heat from the interior and expelling it outside. It can be easily integrated into existing HVAC setups and is suitable for a wide range of commercial and industrial spaces.

Feature:

1. High Capacity
2. Durable Construction: The 304# sheet metal casing offers excellent resistance to corrosion and wear, ensuring a long lifespan.
3. Energy Efficiency: Optimized design and components lead to reduced energy consumption and lower operating costs.
4. Versatile Functionality: Capable of providing both heating and cooling, adapting to different seasons and climate needs.

Specification:

Product	Heating And Cooling Heat Pump
Model	KFXKS-140II-M1(LRS)
Climatic type	Normal
Power supply	380V /50Hz
Rated heating capacity	140kW
Rated heating power	37.8kW
Rated cooling capacity	92KW
Rated cooling power	41.7kW
Max Rated current	95.8A
Rated heating water	55
Rated cooling water	7
Max hot water temp.	60
working temp	0-43
