

158KW Four Systems Heating And Cooling Heat Pump High Energy Efficiency

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: KFXKS-158II-M1(LRS)
- Minimum Order Quantity: 1 Units
- Price: negotiate a price
- Packaging Details: Factory standard packing
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 5 units one day

Product Specification

- Refrigerant Type: R410A
- Compressor: Scroll
- Outlet Water Temp: Up To 60
- Heating: 168.75KW
- Cooling: 112.5KW
- Inlet/outlet Connection: DN80
- Name: Heating And Cooling Heat Pump
- Highlight: **158KW Heating And Cooling Heat Pump,
Four Systems Heating And Cooling Heat Pump**

Product Description

KFXKS-158II-M1(LRS) 158KW Four systems heating and cooling heat pump

Product Description:

The 158KW output capacity makes it suitable for large commercial or industrial spaces, ensuring consistent and adequate heating and cooling throughout. The four systems configuration provides enhanced flexibility and zoning capabilities, allowing for precise temperature management in different areas.

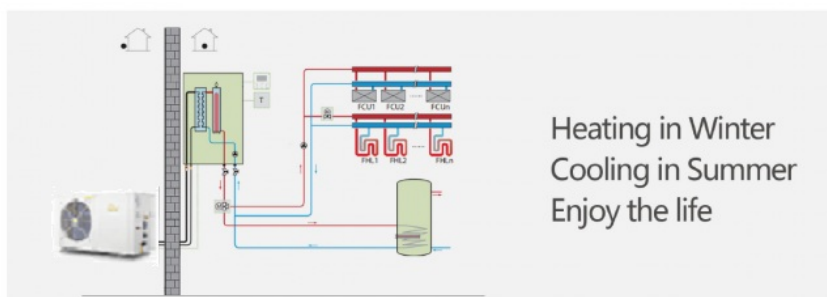

This heat pump is engineered to operate with high energy efficiency, reducing operational costs and minimizing environmental impact. It incorporates state-of-the-art technologies to extract and transfer heat efficiently, delivering superior performance even in extreme weather conditions.

The unit is likely to feature a user-friendly control interface, enabling easy programming and monitoring of temperature settings, operating modes, and system status. Its robust construction and quality components guarantee durability and long service life, reducing the need for frequent maintenance and replacements.

Whether for office buildings, factories, or other large-scale facilities, this 158KW Four systems heating and cooling heat pump offers a reliable and sustainable solution for maintaining a comfortable and productive environment.

Feature:

1. Four independent systems
2. Advanced compressor technology
3. Timer and clock function
4. Anti-freezing function
5. Multiple protections

Specification:

Product	Heating And Cooling Heat Pump
Model	KFXKS-158II-M1(LRS)
Climatic type	Normal
Power supply	380V /50Hz
Rated heating capacity	157.5kW
Rated heating power	38.25kW
Rated cooling capacity	112.5KW
Rated cooling power	42.9kW
Max Rated current	135A
Rated heating water	55
Rated cooling water	7
Max hot water temp.	60
working temp	0-43

• Sample Project :

No9, Guangming North Road, Jiangyi, Leliu Town, Shunde District, Foshan City Guangdong Province, China
