

CE Approved Commercial Air To Water Heat Pump with 48.5KW Heating and 32.2KW Cooling

Our Product Introduction

for more products please visit us on air-source-heatingpump.com

Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: KFXKS-53II-M2(LRS)
- Minimum Order Quantity: 3 units
- Price: negotiate a price
- Packaging Details: Factory standards
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 30 units one day

Product Specification

- Heat Exchanger: Shell In Coil Or Tube In Tube
- Evaporator Color: Gold Or Blue
- Throttling Device: EEV
- Refrigerant: R410A
- Heating: 48.5KW
- Cooling: 32.2KW
- Name: Commercial Air To Water Heat Pump
- Highlight: **Energy Saving Commercial Air To Water Heat Pump**
, Air To Water Heat Pump Heating And Cooling,
Commercial Air To Water Heat Pump For
Cooling

Energy Saving Commercial Air To Water Heat Pump For Cooling CE Approved

KFXKS-53II-M2(LRS) Air to Water Heating and Cooling Heat Pump

The Air to Water Heating and Cooling Heat Pump is an innovative and highly efficient solution for all your temperature control needs. This advanced system operates by extracting heat from the surrounding air and transferring it to water for heating purposes or vice versa for cooling, offering a sustainable and energy-saving alternative to traditional methods.

Designed with cutting-edge technology, our heat pump ensures reliable performance even in extreme weather conditions. It provides consistent and precise temperature control for comfortable environments in residential or commercial spaces. The installation process is straightforward with minimal maintenance requirements, reducing overall costs and hassle.

In heating mode, the heat pump efficiently warms water for underfloor heating, radiator systems, or domestic hot water supply. During cooling season, it cools water to provide refreshing air conditioning. With low noise operation and eco-friendly design, it helps reduce your carbon footprint while delivering superior comfort, energy savings, and durability year-round.

Key Features

- High efficiency and energy saving operation
- Dual function for both warm and cold temperature control
- Safe operation with hydropower separation
- Environmental protection and energy conservation

Technical Specifications

Product	Heating And Cooling Heat Pump
Model	KFXKS-53II-M2(LRS)
Climatic type	Normal
Power supply	380V /50Hz
Rated heating capacity	48.5kW
Rated heating power	13.1kW
Rated cooling capacity	32.2KW
Rated cooling power	14.6kW
Max Rated current	35.5A
Refrigerant / Charge	R410/3600g×2
Rated heating water	55
Rated cooling water	7
Max hot water temp.	60
Working temp	0-43
Water pipe size	DN40
Noise	≤68dB(A)
Product dimension	1500×760×1120mm
Net weight	320kg
