

90KW R32 Refrigerant Full Inverter Pool Heat Pump Commercial Swimming Pool Heater Heat Pump

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: M-D90ADS
- Minimum Order Quantity: 1 unit
- Price: negotiate a price
- Packaging Details: Factory standard packing
- Delivery Time: 30~45days
- Payment Terms: T/T
- Supply Ability: 200 units 30days

Product Specification

- Type: DC Inverter Heat Pump
- Power Source: Air Source
- Refrigerant: R32
- Heat Exchanger: PVC Shell Titanium Tube
- Working Temp: 0-43
- Color: Dark Gray Or White
- Name: Swimming Pool Inverter Heat Pump
- Highlight: **90KW Full Inverter Pool Heat Pump,
R32 Refrigerant Full Inverter Pool Heat Pump,
Commercial Swimming Pool Heater Heat Pump**

Product Description

90KW R32 Refrigerant Full Inverter Commercial Swimming Pool Heater Heat Pump

Product Description:

The swimming pool heat pump is designed for heating swimming pools. It removes the heat from the surrounding air and transfers the heat to the swimming pool water by means of a titanium heat exchanger. Most pool owners rarely enjoy their pools full use due to the water being too cold. Without swimming pool can only be used for average of four months in a year, If with solar heating it can increase to an average of six to eight months of a year, but this is heavily dependent on the weather as solar heating can only operate in perfect sunshine. With an swimming pool heat pump, your pool can be enjoyed all year round. The MEIDIBAO inverter swimming pool heat pump is the perfect addition to your swimming pool or spa.

Feature:

1. Inverter Compressor
2. PVC shell Titanium tube

3. DC fan motor
4. long service life

Specification:

Model:		M-D90ADS
Power Supply	P/V/Hz	3P/380V/50Hz
Rated Heating Capacity	KW	71
Input power	KW	25.61
COP	/	3.8~4.2
Refrigerant Type	/	R32
Refrigerant Volume	g	6200g×2
Applicable Ambient		0-43

Advantages:

Without swimming pool heat pump can only be used for average of four months in a year, If with solar heating it can increase to an average of six to eight months of a year, but this is heavily dependent on the weather as solar heating can only operate in perfect sunshine. With an swimming pool heat pump, your pool can be enjoyed all year round.
