

60kw Heating And Cooling Heat Pump R410A Galvanized Sheet Shell In Tube Air Source

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: meidibao
- Certification: CE
- Model Number: KFXRS-53II-M1
- Minimum Order Quantity: 3 units
- Price: negotiate a price
- Packaging Details: Factory standards
- Delivery Time: 25-30 work days
- Payment Terms: T/T
- Supply Ability: 20 units one day

Product Specification

- Rated Heating Capacity: 60KW
- Type: Inverter
- Operation Ambient Temp: -35~43
- Heat Exchanger: Stainless Plate Exchanger
- Color: White, Dark Grey
- Protection Grade: IPx4
- Highlight: **R410A Heating And Cooling Heat Pump,
60kw Heating And Cooling Heat Pump**

Product Description

60kw Heating And Cooling Heat Pump R410A Galvanized Sheet Shell in Tude Air Source

Product Description:

Foshan Meidibao Electrical Appliance Co.,Ltd. has been a manufacturer professionally specialized in research,development and production of Heat Pumps since 2005.This 60kW Air Source Heat Pump is a powerful solution designed to provide efficient heating and cooling for large commercial and industrial spaces. Encased in a durable, corrosion-resistant galvanized sheet shell, it's ideal for year-round climate control in demanding environments. Using R410A refrigerant, this system ensures high performance with low environmental impact

Feature:

- 1. 60kW High-Capacity Output:** Engineered to efficiently heat or cool large spaces, providing stable temperatures for commercial, industrial, or institutional facilities.
- 2. Heating and Cooling Versatility:** Capable of maintaining optimal indoor temperatures throughout all seasons, adapting seamlessly between heating and cooling modes.
- 3. R410A Refrigerant:** This eco-friendly refrigerant enhances energy efficiency and reduces the system's environmental footprint, aligning with green energy standards.
- 4. Galvanized Sheet Shell:** Constructed with a galvanized sheet shell, this heat pump is built for durability and corrosion resistance, making it ideal for outdoor installations and industrial environments.
- 5. Low Noise Operation:** Designed with noise-reduction features, it operates quietly even at high capacity, ensuring comfort without disrupting indoor activities.

Specification:

Product	Heating And Cooling Heat Pump
Model	KFXRS-53II-M1
Power supply	380V 3N /50Hz
Rated heating capacity	60kW
Rated heating power	15kW
Water heating capacity:	1286L/h
Refrigerant/charging volume:	R410a/3600g×2
Max Rated current	34.45
Protection grade:	IP×4
water pipe size	DN65
Noise	≤78dB(A)

Advantages:

Under ideal weather conditions, heat pump water heaters produce three times the energy used to power the heat pump. In other words, heat pump water heaters use one-third of the electricity of conventional electric water heaters. CUB estimates that the average residential customer would save a lot of money per month using a MEIDIBAO heat pump water heater.
