

## 60KW Heating and Cooling Heat Pump with Galvanized Sheet Shell and R410A Refrigerant

Our Product Introduction

for more products please visit us on [airsource-heatingpump.com](http://airsource-heatingpump.com)

### Basic Information

- Place of Origin: China
- Brand Name: meidibao
- Certification: CE
- Model Number: KFXRS-53II-M1
- Minimum Order Quantity: 3 units
- Price: negotiate a price
- Packaging Details: Factory standards
- Delivery Time: 25-30 work days
- Payment Terms: T/T
- Supply Ability: 20 units one day

### Product Specification

- Rated Heating Capacity: 60KW
- Type: Inverter
- Operation Ambient Temp: -35~43
- Heat Exchanger: Stainless Plate Exchanger
- Color: White, Dark Grey
- Protection Grade: IPx4
- Highlight: **R410A Heating And Cooling Heat Pump,  
60kw Heating And Cooling Heat Pump**

## 60kW Heating and Cooling Heat Pump R410A Galvanized Sheet Shell Air Source

### Product Overview

Foshan Meidibao Electrical Appliance Co., Ltd. has been a manufacturer professionally specialized in research, development and production of Heat Pumps since 2005. This 60kW Air Source Heat Pump is a powerful solution designed to provide efficient heating and cooling for large commercial and industrial spaces. Encased in a durable, corrosion-resistant galvanized sheet shell, it's ideal for year-round climate control in demanding environments. Using R410A refrigerant, this system ensures high performance with low environmental impact.

### Key Features

**60kW High-Capacity Output:** Engineered to efficiently heat or cool large spaces, providing stable temperatures for commercial, industrial, or institutional facilities.

**Heating and Cooling Versatility:** Capable of maintaining optimal indoor temperatures throughout all seasons, adapting seamlessly between heating and cooling modes.

**R410A Refrigerant:** This eco-friendly refrigerant enhances energy efficiency and reduces the system's environmental footprint, aligning with green energy standards.

**Galvanized Sheet Shell:** Constructed with a galvanized sheet shell, this heat pump is built for durability and corrosion resistance, making it ideal for outdoor installations and industrial environments.

**Low Noise Operation:** Designed with noise-reduction features, it operates quietly even at high capacity, ensuring comfort without disrupting indoor activities.

### Technical Specifications

Product	Heating And Cooling Heat Pump
Model	KFXRS-53II-M1
Power Supply	380V 3N /50Hz
Rated Heating Capacity	60kW
Rated Heating Power	15kW
Water Heating Capacity	1286L/h
Refrigerant/Charging Volume	R410a/3600g×2
Max Rated Current	34.45
Protection Grade	IP×4
Water Pipe Size	DN65
Noise	≤78dB(A)

### Energy Efficiency Advantages

Under ideal weather conditions, heat pump water heaters produce three times the energy used to power the heat pump

Heat pump water heaters use one-third of the electricity of conventional electric water heaters

CUB estimates that the average residential customer would save significantly on energy costs using a MEIDIBAO heat pump water heater
