

45HP Four Systems Air Source Heating and Cooling Heat Pump Galvanized Steel Material

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: KFXKS-157II-M1(LRS)
- Minimum Order Quantity: 1 Units
- Price: negotiate a price
- Packaging Details: Factory standard packing
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 5 units one day

Product Specification

- Name: Heating And Cooling Heat Pump
- Compressor: Scroll Copeland
- Place Of Origin: China
- Refrigerant Type: R410A
- Material: Galvanized Steel
- Function: Heating And Cooling
- Highlight: **45HP Heating and Cooling Heat Pump, Air Heating and Cooling Heat Pump**

Product Description

45HP Four Systems Air Source Heating and Cooling Heat Pump Galvanized Steel Material
Product Description:

Experience unmatched efficiency and durability with our **45HP Four Systems Air Source Heating and Cooling Heat Pump** designed to deliver powerful performance for large-scale heating and cooling applications. Built with **galvanized steel** for enhanced durability, this system is the ideal choice for commercial and industrial environments.

Key Features:

High Capacity Performance

With an impressive 45HP capacity, this heat pump supports **four independent systems**, ensuring seamless operation and consistent heating or cooling even in demanding conditions.

Perfect for large buildings, hotels, factories, and office spaces.

Dual Functionality: Heating & Cooling

Efficiently extracts energy from the surrounding air to provide both heating and cooling, making it an energy-efficient, year-round solution.

Operates effectively across a wide range of ambient temperatures, ensuring comfort in all seasons.

Durable Construction

Made from **galvanized steel**, the unit resists corrosion and withstands harsh weather conditions, ensuring longevity and low maintenance costs.

Energy-Efficient Operation

Advanced technology and high COP (Coefficient of Performance) deliver significant energy savings while reducing carbon emissions.

Compatible with renewable energy sources for an eco-friendly solution.

Easy Installation & Maintenance

Compact design and modular system simplify installation.

User-friendly controls and robust components make maintenance hassle-free.

Intelligent Control Systems

Equipped with state-of-the-art digital controls and monitoring features to ensure optimal performance and easy management.

Supports remote monitoring for added convenience.

Specifications:

Power: 45HP

Material: Galvanized Steel

Heating/Cooling Capacity: Tailored for large-scale commercial applications

Energy Efficiency: High COP, meeting global energy standards

Operating Range: Effective in both low and high ambient temperatures

Noise Level: Designed for quiet operation

Applications:

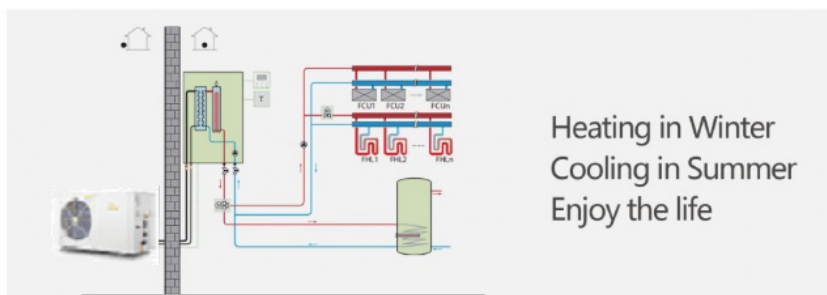

Commercial Buildings

Industrial Facilities

Hotels and Resorts

Schools and Universities

Large Office Complexes

Specification:

Product	Heating And Cooling Heat Pump
Model	KFXKS-175II-M1(LRS)
Climatic type	Normal
Power supply	380V /50Hz
Rated heating capacity	157kW
Rated heating power	47.25kW
Rated cooling capacity	100KW
Rated cooling power	55kW
Max Rated current	125.8A
Rated heating water	55
Rated cooling water	7
Max hot water temp.	60
working temp	0-43

• Sample Project :

No9, Guangming North Road, Jiangyi, Leliu Town, Shunde District, Foshan City Guangdong Province, China
