

Commercial DC Inverter Heat Pump Water Heater with R410A Refrigerant and 140kW Heating Capacity for Hotels and Swimming Pools

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: KFXKS-140II-M1(LRS)
- Minimum Order Quantity: 3 Units
- Price: negotiate a price
- Packaging Details: Factory standard packing
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 5 units one day

Product Specification

- Heat Exchanger: Titanium Shell In Tube
- Name: Heating And Cooling Heat Pump
- Application: Outdoor
- Feature: High Efficiency
- Place Of Origin: China
- Origin: Guangdong China
- Refrigerant Type: R410A
- Highlight: **R410A Heat Pump Water Heater, DC Inverter Heat Pump Water Heater, Commercial Heat Pump Water Heater**

Product Description

Commercial Heat Pump Water Heater DC Inverter R410A Air Source Heating

Professional Heating Solution for Hotels & Swimming Pools

The Commercial DC Inverter Air Source Heat Pump Water Heater is a high-efficiency, eco-friendly heating solution designed for hotels, swimming pools, resorts, and other commercial applications. Using advanced DC inverter technology and R410A refrigerant, this heat pump provides stable, cost-effective, and energy-saving water heating, ensuring consistent hot water supply with low operational costs.

Key Features

- DC Inverter Technology for High Efficiency
- Powerful Heating Performance for Commercial Use
- Eco-Friendly R410A Refrigerant for Sustainable Heating
- Energy-Saving Air Source Heat Pump Technology

Technical Specifications

Product	Heating And Cooling Heat Pump
Model	KFXKS-140II-M1 (LRS)
Climatic type	Normal
Power supply	380V /50Hz
Rated heating capacity	140kW
Rated heating power	37.8kW
Rated cooling capacity	92KW
Rated cooling power	41.7kW
Max Rated current	95.8A
Rated heating water	55
Rated cooling water	7
Max hot water temp.	60
Working temp	0-43
