

10kw Stainless Steel Anti-Corrosion Sheet Air Source Heat Pump Air To Water Heating

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: HKFXRS-18II-M2C
- Minimum Order Quantity: 6 units
- Price: negotiate a price
- Packaging Details: Factory standard packing
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 30 units one day

Product Specification

- Compressor: Panasonic
- Heat Exchanger: Shell In Coil
- Name: Monoblock Heat Pump
- Working Ambient Temperature: 0~43C
- Refrigerant: R410A
- Brand Name: MEIDIBAO
- Highlight: **10kw Air to Water Heating,
10kw Air Source Heat Pump,
R410A Air Source Heat Pump**

Product Description

10kw Stainless Steel Anti-Corrosion Sheet Air Source Heat Pump Air to Water Heating

Product Description:

The 10kW Stainless Steel Air Source Heat Pump is designed for efficient heating and domestic hot water supply, offering high performance, durability, and energy savings. Built with an anti-corrosion stainless steel sheet, this unit is ideal for harsh environments and ensures long-lasting reliability. Perfect for residential, commercial, and small industrial applications, it delivers consistent heating while significantly reducing energy costs.

Feature:

1. High-Quality Stainless Steel Casing
2. Efficient Air-to-Water Heating
3. High Energy Efficiency (COP up to 4.5~5.0)
4. Eco-Friendly Refrigerant (R32/R410A)
5. Multi-Function Application

Specification:

Product	Air source heat pump
Model	HKFXRS-18II-M2C
Climatic type	Normal
Power supply	380V/3HP/50Hz
Rated heating capacity	10kW
Rated power input	3.44kW
Max Rated current	13.25A
Refrigerant	R134A
Rated water temp.	75
Max hot water temp.	80
working temp	0-43
water pipe size	DN25
Noise	≤65dB(A)
Testing condition: ambient Dry/Wet Bulb Temp: 20 / 15 ;Water Inlet Outlet Temp: 15 / 55	

Why Choose Our 10kW Stainless Steel Heat Pump?

Superior Durability – Stainless steel anti-corrosion housing extends the unit's lifespan.

Energy & Cost Savings – Reduces heating expenses by up to 75% compared to traditional systems.

Eco-Friendly & Sustainable – Uses renewable air energy, reducing carbon footprint.

User-Friendly Operation – Smart controls allow easy management via WiFi or digital panel.
