

Commercial Hot Water Heat Pump 60KW 3 Phase 60C Hot Water Heater for Hotel Heating

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: meidibao
- Certification: CE
- Model Number: KFXRS-53II-M1
- Minimum Order Quantity: 3 units
- Price: negotiate a price
- Packaging Details: Factory standards
- Delivery Time: 25-30 work days
- Payment Terms: T/T
- Supply Ability: 20 units one day

Product Specification

- Type: Inverter
- Rated Heating Capacity: 60KW
- Operation Ambient Temp: -35~43
- Heat Exchanger: Stainless Plate Exchanger
- Protection Grade: IPx4
- Color: White, Dark Grey
- Highlight: **R410A Heating And Cooling Heat Pump,
60kw Heating And Cooling Heat Pump**

Product Description

Commercial Hot Water Heat Pump 60KW 3 Phase 60C Hot Water Heater for Hotel Heating

Product Description:

The 60kW Commercial Hot Water Heat Pump is a high-efficiency, cost-saving solution designed to meet the high-demand hot water needs of hotels, resorts, apartments, hospitals, and other commercial buildings. With its powerful 60kW heating capacity, this heat pump efficiently produces high-temperature water up to 60°C, ensuring a stable and reliable hot water supply while significantly reducing energy costs compared to traditional heating systems.

Feature:

1. 60kW High Heating Capacity.
2. 3-Phase Power Supply
3. High-Temperature Water Output (Up to 60°C)
4. Energy-Efficient Heat Pump Technology
5. Eco-Friendly Refrigerant (R410A/R407C Available)

Specification:

| | |
|------------------------------|-------------------------------|
| Product | Heating And Cooling Heat Pump |
| Model | KFXRS-53II-M1 |
| Power supply | 380V 3N /50Hz |
| Rated heating capacity | 60kW |
| Rated heating power | 15kW |
| Water heating capacity: | 1286L/h |
| Refrigerant/charging volume: | R410a/3600g×2 |
| Max Rated current | 34.45 |
| Protection grade: | IP×4 |
| water pipe size | DN65 |
| Noise | ≤78dB(A) |

Advantages:

Under ideal weather conditions, heat pump water heaters produce three times the energy used to power the heat pump. In other words, heat pump water heaters use one-third of the electricity of conventional electric water heaters. CUB estimates that the average residential customer would save a lot of money per month using a MEIDIBAO heat pump water heater.
