

Meidibao EVI DC Inverter Air Source Heat Pump with 10.5KW Heating and R32 Refrigerant for Efficient Heating and Cooling

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: KFXKS-8I-M2C(LRS)
- Minimum Order Quantity: 10 units
- Price: negotiate a price
- Packaging Details: Factory standard packing
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 30 units one day

Product Specification

- Name: Heating And Cooling Heat Pump
- Refrigerant Oil: R32
- Type: Air Source
- Heating: 10.5KW
- Cooling: 6.9KW
- Color: White, Dark Grey, OEM
- Highlight: **10kw Air Source Heat Pump, 230v Air Source Heat Pump**

Product Description

Meidibao Hot Selling Air Source Heat Pump EVI DC Inverter 10kw 230v Air to Water Heater

The Meidibao EVI DC Inverter Air Source Heat Pump is designed for superior performance in low-temperature environments, making it ideal for residential and light commercial heating and hot water applications. With Enhanced Vapor Injection (EVI) technology, it delivers stable, high-efficiency heating even in freezing conditions.

Key Features

Famous brand compressor for reliable performance

Water side heat exchanger utilizes high-efficiency shell tube or threaded casing design with small volume, light weight, easy disassembly, convective heat conduction, and high efficiency pressure

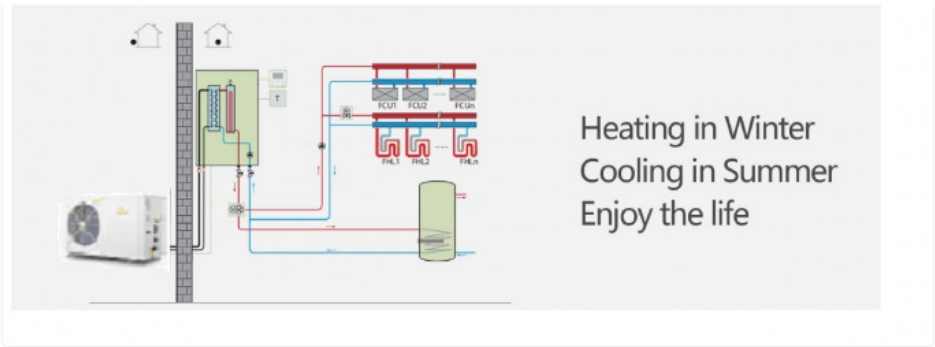

Air side heat exchanger features integral hydrophilic finned inner threaded tube design with large windward area, high heat transfer efficiency, resistance to oxidation and corrosion, and hydrophilic fins that minimize condensation and frosting

Housing materials available in galvanized steel or 304# sheet metal for durability

Technical Specifications

Product	Heating And Cooling Heat Pump
Model	KFXKS-8I-M2C(LRS)
Climatic type	Normal
Power supply	220V /50Hz
Rated heating capacity	10.5kW
Rated heating power	2.83kW
Rated cooling capacity	6.9KW
Rated cooling power	3.1kW
Max Rated current	18A
Refrigerant / Charge	R32/1700
Rated heating water	55
Rated cooling water	7
Max hot water temp.	60
Working temp	0-43
Water pipe size	DN25
Noise	≤65dB(A)
