

Factory Price Inverter Heat Pump Monoblock Air to Water Heat Pump for Heating and Cooling

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: HKFXRS-18II-M2C
- Minimum Order Quantity: 6 units
- Price: negotiate a price
- Packaging Details: Factory standard packing
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 30 units one day

Product Specification

- Brand Name: MEIDIBAO
- Name: Monoblock Heat Pump
- Heat Exchanger: Shell In Coil
- Working Ambient Temperature: 0~43C
- Compressor: Panasonic
- Refrigerant: R410A

Product Description

Factory Price Inverter Heat Pump Monoblock Air to Water Heat Pump for Heating and Cooling

Description

This high-efficiency **monoblock air to water heat pump** is designed for both residential and light commercial use. With a **DC inverter compressor**, it automatically adjusts performance based on real-time temperature demand, ensuring **optimal energy savings** and **stable operation** throughout the year.

Feature:

Energy Efficient
All-in-One Function
Factory Direct Price
Wide Application
Quiet Operation
Eco-Friendly Refrigerant

Specification:

Product	Air source heat pump
Model	HKFXRS-18II-M2C
Climatic type	Normal
Power supply	380V/3HP/50Hz
Rated heating capacity	10kW
Rated power input	3.44kW
Max Rated current	13.25A
Refrigerant	R134A
Rated water temp.	75
Max hot water temp.	80
working temp	0-43
water pipe size	DN25
Noise	≤65dB(A)
Testing condition: ambient Dry/Wet Bulb Temp: 20 / 15 ; Water Inlet Outlet Temp: 15 / 55	

Application Scenarios

This monoblock air to water inverter heat pump is widely used in a variety of residential and light commercial settings, including:

Homes & Villas – Efficient year-round **heating, cooling, and hot water** for individual houses or multi-family residences.

Apartments & Buildings – Ideal for centralized water heating and space temperature regulation.

Hotels & Guesthouses – Provides consistent comfort for guests with efficient energy use.

Schools & Offices – Maintains a comfortable indoor environment in classrooms and workspaces.

Bathrooms & Kitchens – Supplies stable hot water on demand, even in cold climates.

New Energy Construction Projects – Perfect for eco-friendly building projects or retrofitting traditional systems.
