

Commercial Low-Temperature Heat Pump with Rapid Heating Intelligent Regulation and Anti-Freezing Protection

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: DKFXKR-175II-M1CD1
- Minimum Order Quantity: 3SET
- Price: negotiate a price
- Packaging Details: wooden frame or plywood box
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 30 SET one day

Product Specification

- Heat Exchanger: High Efficiency Shell In Tube
- Name: High-Temperature Heat Pump
- Material: Galvanized Sheet
- Use: Hot Water
- Dimension: 2300*1200*2270
- Weight: 1100
- Highlight: **Low Temperature Heat Pump,
Cold Climate Low Temperature Heat Pumps**

Cold Climate Champions Top Low-Temperature Heat Pumps For Reliable Heating

About Our Company

Foshan Meidibiao Electrical Appliance Co., Ltd., established in 2005, specializes in the research, development and production of heat pumps. With high-quality products and excellent customer service, we have received great praise in markets around the world and have established a global sales network covering regions such as Europe, North America, and South Africa. Whether in terms of technological innovation or service provision, we are committed to exceeding industry standards and establishing long-term partnerships based on reliability and performance.

Key Features

- Rapid Heating:** Equipped with a powerful compressor that quickly raises indoor temperature in minimal time
- Intelligent Regulation:** Supports remote control via APP for real-time temperature and mode adjustments
- Anti-freezing Protection:** Internal anti-freezing module automatically monitors pipeline temperature to prevent cracking risks
- Extended Service Life:** High-quality core components and anti-corrosion processes ensure over 15 years of reliable operation

Technical Specifications

Model	DXFXKR-105II-M1CD1
Power Supply Specification	380V 3N-50HZ
Rated Heating Capacity	126.4 kW
Nominal Input Power	50.1/88.5 kW
Hot Water Output	24 L/H
Air Outlet Mode	Top Discharge
Inlet and Outlet Port Type	DN40 MM
Noise Level	≤76 DB(A)
Dimensions	2300×1200×2270 MM
Weight	1100 KG

System Advantages

Our low-temperature heat pumps integrate advanced technology throughout the entire usage process, providing convenient, safe and comfortable operation. Supporting AI voice control and smart home interaction, users can remotely control the device through mobile phone APP to achieve functions such as on/off, timing, and temperature adjustment, allowing complete environmental monitoring anytime, anywhere.

The equipment eliminates risks of open flame or electric leakage with multiple protection mechanisms including anti-freezing, anti-high voltage and anti-electric leakage. The standardized interface design reduces installation cycles by 50%, while the intelligent fault diagnosis system increases maintenance response speed by 70%, significantly reducing operational concerns.

We offer diverse solutions including individual household heating and regional centralized heating, flexibly adapting to residential, commercial and industrial requirements while meeting diverse demands for comfortable living and production environments.
