

ThermoSwift South High Efficiency Heat Pump with First-Level Energy Efficiency for Wide-Temperature Operation and Corrosion-Resistant Hot Water Machine

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: MDB-03-02
- Minimum Order Quantity: 3 Unit
- Price: negotiate a price
- Packaging Details: Factory standard packing
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 10 Unit/Units per Month

Product Specification

- Name: Meidibao Heat Pump
- Type: Fixed
- Origin: Guangdong Province China
- Working Temp: -7-43
- Dimension: 710*670*900
- Weight: 100
- Highlight: **Steady Hot Water Supply Heat Pumps, High Efficiency EVI Heat Pumps**

ThermoSwift South High Efficiency Heat Pumps For Steady Hot Water Supply

Product Overview

Foshan Meidibiao Electrical Appliance Co., Ltd, established in 2005, specializes in the research, development and production of heat pumps. With high-quality products and excellent customer service, we have received great praise in markets around the world and established a global sales network covering regions such as Europe, North America, and South Africa. We are committed to exceeding industry standards in both technological innovation and service provision, establishing long-term partnerships based on reliability and performance.

Key Features

Ultra-high energy efficiency: Certified with first-level energy efficiency standard, saves up to 70% of electricity and reduces long-term operational costs

Wide-temperature operation: Operating range from -5 to 45 , handles seasonal temperature variations with ease

Durable construction: High-quality corrosion-resistant materials with anti-freezing technology for extended service life

Energy conservation + environmental protection: Utilizes air thermal energy, reducing electricity reliance and supporting sustainable development

Convenient maintenance: Modular design simplifies troubleshooting and maintenance, reducing after-sales costs

Technical Specifications

Specification	Unit	Value
Model		KFYRS-18II-M6
Factory Model Number		MDB-03-2
Applicable Ambient Temperature	°C	-7 to 43
Power Supply Specification		380V 3N-50HZ
Rated Heating Capacity	kW	11
Nominal Input Power	kW	2.75
Maximum Operating Current	A	6.2
Hot Water Output	L/H	235
Refrigerant		R22
Air Outlet Mode		Push out the wind
Protection Class		IPX4
Outlet Water Temperature		28-60
Inlet and Outlet Port Type	MM	DN25
Noise	dB(A)	≤65
Dimensions	MM	710×670×900
Weight	KG	100

Product Advantages

The Southern Hot Water machine series heat pump has obtained first-level energy efficiency certification, saving up to 70% of electricity for long-term cost-effectiveness. Operating within a wide temperature range of -5 to 45 , it handles seasonal temperature variations with

ease. High-quality corrosion-resistant materials combined with anti-freezing technology ensure exceptional durability. The utilization of air thermal energy provides energy-saving and environmentally friendly operation. Modular design facilitates convenient maintenance and reduces after-sales costs.
