

Eco-Friendly Hot Water Heat Pump For Southern Climates - High-Performance Circulation Design

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: MDB-12H
- Minimum Order Quantity: 3 Unit
- Price: negotiate a price
- Packaging Details: Factory standard packing
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 10 Unit/Units per Month

Product Specification

- Name: Meidibao Heat Pump
- Type: Inverter
- Origin: Guangdong Province China
- Working Temp: -7-43
- Dimension: 1500*760*1120
- Weight: 255

Product Description

Eco-Friendly Hot Water Heat Pump For Southern Climates - High-Performance Circulation Design

Product description:

Foshan Meidibiao Electrical Appliance Co.,Ltd,established in 2005,specialized in the research,development and production of Heat pumps.With high-quality products and excellent customer service, it has received great praise in markets around the world and has established a global sales network covering regions such as Europe, North America, and South Africa.Whether in terms of technological innovation or service provision, we are committed to exceeding industry standards and establishing long-term partnerships based on reliability and performance.

Key Features:

1. Remote control: Equipped with a WiFi module, it supports remote adjustment of water temperature, scheduled on/off, and reservation of hot water via a mobile phone APP, flexibly adapting to different usage scenarios.
- 2.AI Intelligent Learning: The built-in AI system can analyze users' water usage habits, automatically optimize operation modes, and further enhance energy-saving efficiency.
3. Multi-platform compatibility: Supports voice control and is compatible with mainstream smart home platforms, seamlessly integrating into modern smart life.

Specification:

MODEL	unit	KFYRS-45II-M11
Factory Model Number		MDB-12H
Applicable Ambient Temperature	°C	-7-43
Power Supply Specification	V	380v 3N-50HZ
Rated Heating Capacity	kw	45
Nominal Input Power	KW	9.6
Maximum Operating Current	A	25
Hot Water Output	L/H	965
Refrigerant	V	R410A
Air Outlet Mode	V	Push out the wind
Protection Class	V	IPX4
Outlet Water Temperature	V	28-60
Inlet and Outlet Port Type	MM	DN40
Noise	DB(A)	≤68
Dimensions	MM	1500*760*1120
Weight	KG	255

Advantages:

Through the remote control function of the mobile phone APP, users can adjust the water temperature, set the time to turn on and off or reserve hot water anytime and anywhere. Whether it is preparing hot water in advance when going out or intelligently setting the running time according to the daily routine, all can be easily achieved. The built-in AI intelligent learning system can automatically analyze users' water usage habits, optimize the operation mode, and further save energy. Meanwhile, it supports voice control and is compatible with mainstream smart home platforms, allowing the hot water equipment to seamlessly integrate into smart living scenarios and enhancing the convenience and technological feel of home life.
