

## All-Weather High-Efficiency Heat Pump For Southern Areas - Advanced Hot Water Circulation Technology

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: MDB-25H
- Minimum Order Quantity: 3 Unit
- Price: negotiate a price
- Packaging Details: Factory standard packing
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 10 Unit/Units per Month

#### Product Specification

- Name: Meidibao Heat Pump
- Type: Inverter
- Origin: Guangdong Province China
- Working Temp: -7-43
- Dimension: 2000\*1100\*1960
- Weight: 640

## Product Description

### Eco-Friendly Hot Water Heat Pump For Southern Climates - High-Performance Circulation Design

#### Product description:

Foshan Meidibiao Electrical Appliance Co.,Ltd,established in 2005,specialized in the research,development and production of Heat pumps.With high-quality products and excellent customer service, it has received great praise in markets around the world and has established a global sales network covering regions such as Europe, North America, and South Africa.Whether in terms of technological innovation or service provision, we are committed to exceeding industry standards and establishing long-term partnerships based on reliability and performance.

#### Key Features:

1. Low-temperature heating technology: Utilizing low-temperature gas injection enthalpy technology, it can still provide efficient heating during cold waves, ensuring a stable supply of hot water.
2. High-temperature protection design: In response to the high-temperature and high-humidity environment in summer, the heat dissipation system is optimized to prevent performance degradation of the equipment due to overheating.
3. Wide temperature range operation: It can operate stably within the temperature range of -15 to 45 , unaffected by cold waves and high temperatures in the south.

#### Specification:

|                                |       |                   |
|--------------------------------|-------|-------------------|
| MODEL                          | unit  | KFXRS-71II-M11    |
| Factory code                   |       | MDB-25H           |
| Applicable Ambient Temperature | °C    | -7-43             |
| Power Supply Specification     | /     | 380v 3N-50HZ      |
| Rated Heating Capacity         | kw    | 87.8              |
| Nominal Input Power            | KW    | 18.5              |
| Maximum Operating Current      | A     | 47.1              |
| Hot Water Output               | L/H   | 1880              |
| Refrigerant                    | /     | R410A             |
| Air Outlet Mode                | /     | Push out the wind |
| Protection Class               | /     | IPX4              |
| Outlet Water Temperature       | /     | 28-60             |
| Inlet and Outlet Port Type     | MM    | DN40              |
| Noise                          | DB(A) | ≤74               |
| Dimensions                     | MM    | 2000*1100*1960    |
| Weight                         | KG    | 640               |

**Advantages:**Silent low noise and flexible installation, balancing comfort and space: The fully enclosed silent compressor and optimized air duct design reduce the operating noise of the equipment to below 45 decibels. Even when installed indoors or near residential areas, it will not interfere with daily life. In addition, the unit has a compact structure, occupies a small area, and offers flexible installation methods. It can be installed in various forms such as wall-mounted and floor-standing according to actual space requirements, and is suitable for various scenarios including home bathrooms, hotel rooms, and commercial places. There is no need to worry about the limitations of installation space, nor to endure the noise of equipment operation. It creates a comfortable and quiet living environment for users.
