

Smart Pool Heat Pump Solutions: Rapid Heating, High Efficiency, And Corrosion-Resistant Design For Southern Residential And Commercial Swimming Pools

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meidibao
- Certification: CE
- Model Number: MDB-1.5F-2F
- Minimum Order Quantity: 3SET
- Price: negotiate a price
- Packaging Details: wooden frame or plywood box
- Delivery Time: Specific to the order based on regular products 5 to 7 days. Custom made for 30 days
- Payment Terms: T/T
- Supply Ability: 30 SET one day

Product Specification

- Heat Exchanger: High Efficiency Shell In Tube
- Name: High-Temperature Heat Pump
- Material: Galvanized Sheet
- Use: Hot Water
- Dimension: 795*290*540
- Weight: 31

Product Description

Efficient Pool Heat Pumps For Southern Climates: Uninterrupted Year-Round Comfort With Ultra-Low Energy Consumption And Precision Temperature Control

Product Description:

The Meidibao Air Source Heat Pump is designed to efficiently supply room temperature hot water using advanced air-to-water technology. With low power consumption and stable performance, it is ideal for residential or light commercial use. This system absorbs heat from the ambient air and transfers it into water, significantly reducing energy costs while ensuring a consistent hot water supply.

Feature:

Equipped with high-precision temperature sensors and an intelligent control system, the swimming pool heat pump can precisely control the pool water temperature within ± 0.5 , saying goodbye to the trouble of water temperature fluctuating between hot and cold. Whether you want to enjoy a refreshing swim in the scorching summer or long for warmth and water in the cold winter, it can quickly adjust the pool water to the ideal temperature and maintain it stably for a long time. Meanwhile, the intelligent system can also automatically adjust the heating power according to the changes in environmental temperature to ensure that the water temperature is always within a comfortable range, allowing users to enjoy a pleasant swimming experience at any time.

Specification:

MODEL	unit	KF115-MF011
Factory Model Number		MDB-2F
Applicable Ambient Temperature	°C	-7-43
Power Supply Specification	/	220V 1N-50HZ
Rated Heating Capacity	kw	6.3
Nominal Input Power	kw	1.61
rated supply voltage	A	7.3
Hot Water Output	L/H	135
Hot Water temperature		55
Noise	DB(A)	≤55
Dimensions	MM	795*290*540
Weight	KG	43

Advantages: Equipped with high-precision temperature sensors and an intelligent control system, the swimming pool heat pump can precisely control the pool water temperature within ± 0.5 , saying goodbye to the trouble of water temperature fluctuating between hot and cold. Whether you want to enjoy a refreshing swim in the scorching summer or long for warmth and water in the cold winter, it can quickly adjust the pool water to the ideal temperature and maintain it stably for a long time. Meanwhile, the intelligent system can also automatically adjust the heating power according to the changes in environmental temperature to ensure that the water temperature is always within a comfortable range, allowing users to enjoy a pleasant swimming experience at any time.
