

Ceiling Hanging Industrial Air Conditioner with 360° Adjustable Air Direction and Hybrid Evaporative Condensation Tech for Energy Saving

Our Product Introduction

for more products please visit us on airsource-heatingpump.com

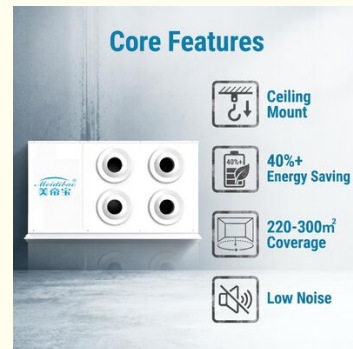

Basic Information

- Place of Origin: China Foshan Meidebao Intelligent Appliance Co., Ltd.
- Brand Name: MEIDIBAO
- Certification: CE
- Model Number: MEIDIBAO-080DSL
- Minimum Order Quantity: 1
- Price: For discussion
- Packaging Details: wooden frame or plywood box
- Delivery Time: 30~35days
- Payment Terms: T/T
- Supply Ability: 30set day

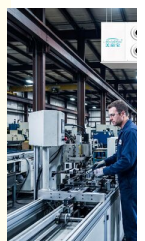

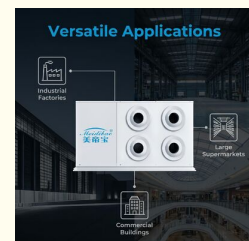

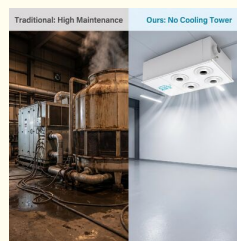

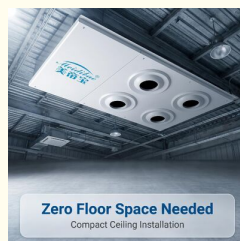

Product Specification

- Waterproof Level: IP×4
- Power Input: 220
- Productname: Industrial Air Conditioning
- Applicable Area: 200-260
- Material: Galvanized Steel With Powder Coating
- Compressor: Dural
- Max Input Power: 13.9
- Rated Input Power: 1800
- Humiditycontrol: Available With Humidifier/dehumidifier Options
- Rated Heating Capacity: 7000
- Refrigeranttype: R410A / R134a
- Rated Current: 5.8
- Controlsystem: Digital Microprocessor Controller
- Input Power: 15.5kw

Product Description

Ceiling Hanging 4-Hole Jet Industrial Air Conditioner for Warehouse, Factory, Supermarket & Office Lobby Fresh Air Cooling

Space-saving Suspended Installation

Ceiling hanging design saves all floor production space, ideal for factories with dense production lines

Our Product

4 universal spherical jet nozzles, 360° adjustable air direction, long-distance air supply up to 20m, eliminate dead cooling zones for large-span steel workshops

Compact integrated cabinet, easy retrofit for old factories, available for plant ceiling height over 3.2m

Remarkable Energy Saving

Hybrid evaporative condensation tech cuts power consumption by over 40% vs conventional air-cooled central AC, greatly reduce monthly electricity bills

Stable continuous operation under ambient temp up to 45 , perfect for Southeast Asia & Middle East high-temperature workshops

No extra cooling tower required, save infrastructure cost for cooling tower & complicated piping

Powerful Cooling Capacity (6HP/8HP)

Single unit covers 220~300 large open workshop; independent on/off control for zone cooling to save extra power waste.

Low Maintenance & Fresh Air

Less copper pipeline layout, lower refrigerant leakage risk, shorten installation period and after-sales maintenance cost

Jet air delivery brings fresh air exchange, removes workshop odor & stuffiness, fit for food & electronics processing factories

Optimized duct design, running noise ≤66dB, no disturbance to production

Factory Customization Service

Foshan original manufacturer Meidibao supports OEM & ODM, customizable for global 380V industrial voltage standard.

Widely applicable: textile mill, metal stamping plant, plastic injection factory, logistics warehouse, agricultural processing workshop.

INDUSTRIAL EVAPORATIVE AC

Energy Saving 40%+

Core Features

**Ceiling
Mount**

**40%+
Energy Saving**

**220-300m²
Coverage**

Low Noise

Versatile Applications

Industrial
Factories

Large
Supermarkets

Commercial
Buildings

20m Powerful Airflow

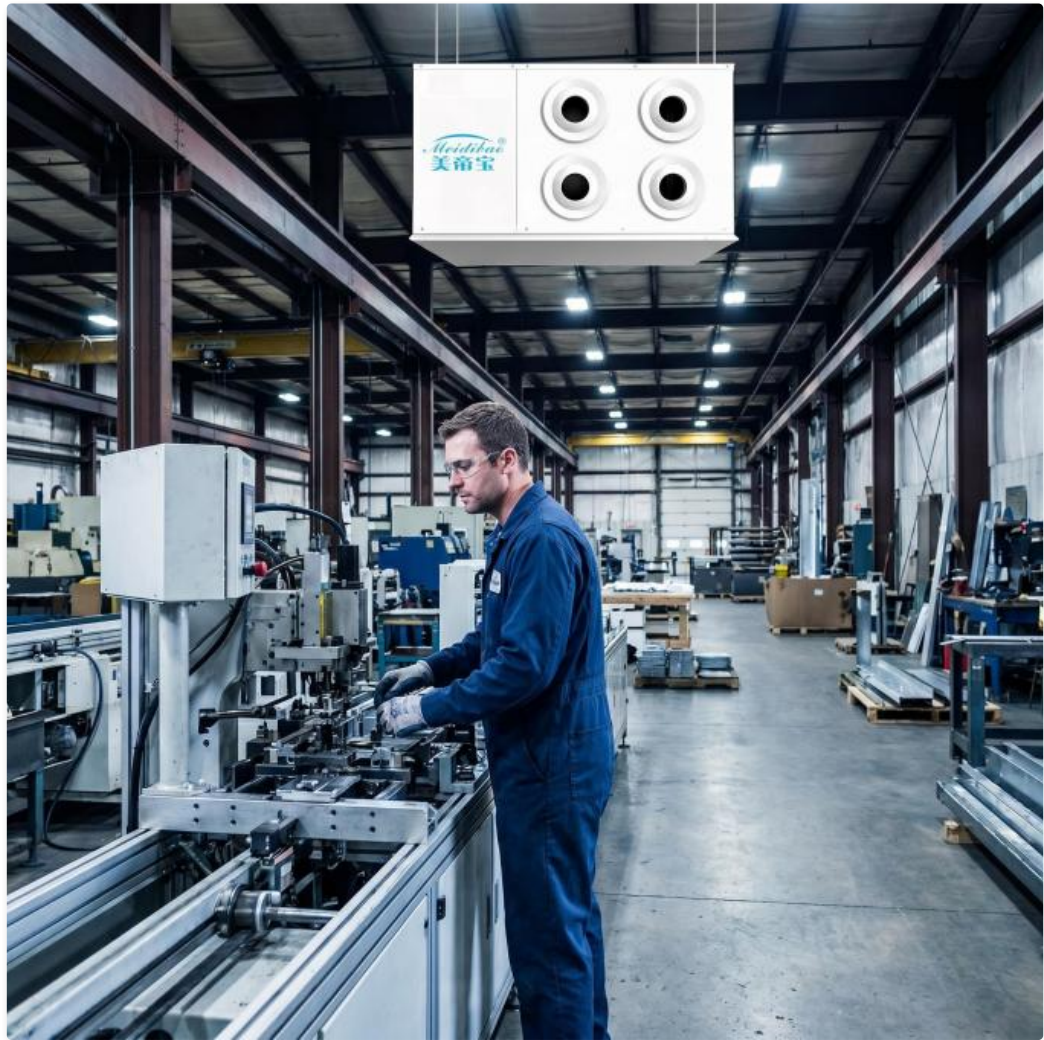

360° Adjustable 4-Hole Jets

Traditional: High Maintenance

Ours: No Cooling Tower
